

# Himank Gupta

## Data Analyst

### OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the organization's success. To secure a difficult position in a reputable organization to expand my learnings, knowledge, and abilities in Analytics.

### Professional Experience

#### ○ Aug 2021-Feb 2022

##### **Aavas Financiers Limited (IT Support Engineer) Head Office**

Support to pan India Branches. Solving IT-related Issues and helping the team to solve the problems like software and hardware problems, Mail issue, system issue, call logs, SQL data updates, extract data from DB.

#### ○ Jan 2021-June 2021

##### **ITCONS(NTT DATA) Network and IT Support Engineer**

Working on the Head Office of PNB, and providing support to the District Branches of PNB. Solving Issues of Mail, websites, system issues, as well as Network issues. Load balancing, system configuration, data backup, etc.

### Internship

#### ○ Jun 2022-Aug 2022

##### **Learn and Build (Data Science Intern)**

Learning Data Science and upskilling my Techniques by working on different data sets and making ML models for prediction. Learning supervised and unsupervised machine learning working on Python to solve the complex problem of data science.

#### ○ May 2020-June 2020

##### **Kota Super Thermal Power Station (Internship)**

In this Internship, I learn about KSTPS and the process to produce Electricity in this station. They are using coal to produce electricity.

### Projects

#### ○ Crop and Yield Prediction using Machine Learning

In this, my model is predicting the crops on the bases of the suitable season and on the bases of soil type and contaminants present in it.

#### ○ Home Price Prediction (ML)

In this project, my model is predicting the home price on the bases of the Features. I'm using data set to learn the Home prices to the ML model.

#### ○ Sensor Base Hand Sanitizer Machine

In this project, we design a hand sanitizer machine that can sanitize our hands without touching the machine.

Ahmedabad, Gujarat

### Technical Skills

- Data Analysis
- Python, MySQL
- Machine Learning
- Data Visualization

### Soft Skills

- Focused learner
- Team Player
- problem solving

### Certifications

- Data Science with ML and AI
- Data Analysis Using Python (IBM)
- MySQL (IBM)
- NumPy (Great Learning)
- ITCP/IP (courser)

### Education Background

- Global Institute of Technology, Jaipur (2021) B.Tech (ECE) 59.7%
- Shiv Jyoti Sr Sec School, Kota Higher Secondary School 70%
- Maa Bharti Sr Sec School, Kota Secondary School 9.6 CGPA
