- | | | |
|---------------|--------------------|-----------------|
| • Java | • HTML | Communication |
| • Spring | • CSS | Problem Solving |
| • Spring Boot | • Bootstrap | Team-work |
| • Hibernate | • Java Script | Data analysis |
| • SQL | • AWS Web Services | |

EXPERIENCE

❖ Internship at CIGNEX Datamatics Private Limited Feb 2023 - May 2023

Java Developer

- Worked as a Java Developer, primarily responsible for functional web application development.
- Led the development of the "**Skill Metrics Based Data Keeping Management**" Project from scratch. Utilized **Apache POI library** for data storage and retrieval in Excel sheets.
- Implemented responsive features using **Bootstrap** templates and **JSP** pages for the frontend.
- Utilized **Spring MVC framework** and **JPA library** for efficient management of employee data in MySQL workbench.

Technologies Used: Spring Boot, MYSQL Workbench, Postman, Bootstrap, JSP

❖ Internship at CreArt Solutions Jun 2022 – July 2022

Django-Python

- I Wrote clean code for functional web applications under the instruction of a master developer.
- I Created "**Email Sender Web-App**" Project from scratch.\

Technologies Used: Django, Apache tomcat server, Bootstrap, JavaScript, Postman, MYSQL workbench

Project

- Developed a RESTful API for a **Blog application** using Java and Spring Boot.
- Implemented CRUD (Create, Read, Update, Delete) functionalities to manage blog posts, comments, categories and user.
- Utilized **Hibernate** to interact with a MySQL database for storing and retrieving blog data.
- Ensured API security by implementing authentication and authorization mechanisms using **Spring Security**.
- Successfully deployed the project on **AWS Elastic Beanstalk** for easy and scalable management of the application.

Technologies Used: Spring Boot, MYSQL Workbench, Postman, aws web service
