Career Objective

To pursue a career with an organization that provides an excellent platform, which enables me to apply my skills to achieve organizational objectives, to excel in innovative technology and develop world-class solutions to real world challenges.

Professional Summary

- Total 6 years of experience in Google Analytics, Google Tag Manager, Google Data Studio, Adobe Analytics Workspace, Adobe Analytics Data Collection, Python, SQL, Microsoft SQL Server, Oracle Database, MySQL, IBM DB2, IBM MobileFirst Server, WebSphere Application Server, IBM Web Content Management (WCM), IBM Form Experience Builder, HCL Leap, Eclipse.
- Expertise in setup and configure Analytics using Google Tag Manager and Adobe Launch.
- Experienced in Dashboard creation using Adobe Analytics Workspace and Google Data Studio.
- Experience in Data Analysis using report created on Google Data Studio, Adobe Analytics Workspace, and python.
- Experience in implementation of page view and behavior event tracking using java script.
- Hands on Experience in Python
- Worked on complete project cycle right from requirement analysis to system study, designing, estimation, coding, testing, documentation using agile process.
- Experienced in Core Java and JAX-RS Framework.
- Worked on Microsoft SQL Server, Oracle SQL DB, MYSQL and IBM DB2.
- Having experience in Web technologies using Java and integration with various backend systems using REST APIs and databases.
- Having experience in building Web Application using IBM Form Experience Builder and HCL Leap.
- Efficiently work both in the individual assignments and team environment.
- Strong Debugging and problem-solving skills with excellent understanding of system development methodologies, techniques, and tools.
- Understanding of source code repositories and branching and merging strategies.

Skill Set

Languages	Python, SQL, Core Java, JavaScript
Databases	Microsoft SQL Server, Oracle SQL, MySQL, IBM DB2
Operating System	Windows 10/8/7/XP, Linux
Development Tools	Google Analytics, Google Tag Manager, Google Data Studio, Adobe Analytics Workspace, Adobe Analytics Data Collection, Visual Studio Code, Eclipse, IBM Web Content Management (WCM), IBM Form

Email: harungandhi95@gmail.com

	Experience Builder, HCL Leap
Web Technologies	HTML, CSS, JavaScript, XML
Frameworks	JAX-RS
Web Servers	IBM MobileFirst Server, WebSphere Application Server, Apache Tomcat
Others Tools	SVN, GIT, JIRA, SOAP UI, Putty

Achievement

- Google Certified: Google Analytics Individual Qualification.
- Google Analytics Academy Certified: Google Analytics for Beginners.
- Google Analytics Academy Certified: Advanced Google Analytics.
- Google Analytics Academy Certified: Google Tag Manager Fundamentals.
- IBM Certified Application Developer.
- Stood 646th Rank in 1st Round of Code Gladiators 2017 in India.
- Stood 2nd in Class XII (HSC) in Mahemdabad center.
- Stood 6th in Class X (SSC) in Mahemdabad center.
- Stood 25th Rank in Gujarat Science Olympiad-2008(GSO) in Gujarat.

Academic Record

Degree	University/Institute	Year	CPI / Percentage
B. Tech (I.T.)	Dharmsinh Desai Institute of Technology, Nadiad, Gujarat	2012-2016	8.16
H. S. C. (12 th)	Sheth J H Sonawala High School, Mahemdabad	2011-2012	86%
S. S. C. (10 th)	ST. Xavier's High School, Mahemdabad	2009-2010	85.71%

Hobbies

- Enthusiastic about playing cricket, football, watching various other sports, playing computer games.

Employment Details

Employer: Streebo Inc.
Location: Streebo House, Makarba, Ahmedabad.
Duration: April 2016 – Present.
Designation: Senior Technical Consultant.

Project Details

1. India's one of the largest Insurance Company

Objective of this project is to setup, implement, Reporting and Data Analysis using Google Analytics and Adobe Analytics.

Responsibilities	<ul style="list-style-type: none">● Requirement gathering from daily client call (Works on T&M Project)● Creating GA console account, Property, and view.● Creating GTM container.● Creating tags, variable, trigger on Google Tag Manager Console● Creating Custom dimension, Custom metric on GA Console● Creating Goals and setup enhance E-commerce● Creating Reports in Google Analytics, Google Data Studio and Adobe Analytics Workspace.● Creating Single JS file for function to capture google analytics and adobe analytics from front-end● Implemented Page view and event tracking using java script code on Front-end project● Data Analysis Using Reports Created.● Auditing of Analytics on All environment using Omnibug, Tag Assistant, AEM debugger, GTM Debugger.● Implemented Pixel tracking of Bing, Facebook, Google Ads, Google DC using GTM.● Implemented Hotjar and Microsoft clarity tracking.
Tools	Eclipse, GIT, Google Analytics (GA Console, Data Studio, GTM), Adobe Analytics (Workspace, Launch)
Technologies	Java, JavaScript

2. HCL's enterprise risk & compliance management solution

Objective of this project is to develop and support HCL Risk & Compliance portals.

My contribution	<ul style="list-style-type: none">● Develop and maintain cloud backend API's which is purely built in Java and Java frameworks● Integrated Leap REST APIs and crud operation with database and provide data, manipulate data as per client requirement.● Worked on Front-end validation as per client Requirement● Create Front-end Forms using HCL Leap or IBM Form Experience Builder● Support and bug fixes● Analyst data as per client requirement, update data form backend as per client requirement.
Tools	IBM MobileFirst, IBM WebSphere Application Server, Eclipse, Visual Studio Code, SVN, GIT, JIRA, HCL Leap
Technologies	IBM DB2, JAVA, JavaScript, HTML, CSS

3. Punjab National Bank Housing Finance Limited

Objective of this project is to migrate PNBHFL existing portal to new enhance portal.

My contribution	<ul style="list-style-type: none">● Develop and maintain cloud backend API's which is purely built in Java and Java frameworks● Integrated Banking REST APIs and crud operation with database and provide data, manipulate data as per client requirement.● Worked on Front-end validation as per client Requirement● Create Front-end Forms using HCL Leap or IBM Form Experience Builder● Support and bug fixes
Tools	IBM MobileFirst, IBM WebSphere Application Server, Eclipse, Visual Studio Code, SVN, GIT, JIRA, HCL Leap, IBM Form Experience Builder
Technologies	Microsoft SQL Server, JAVA, JavaScript, HTML, CSS

4. Birla Sun Life Insurance

India's one of the largest Insurance Company – Sales Agent Solution This app includes modules like Pre-Sales Manager, Post-Sales Manager, Distributor Manager, Service Manager, Knowledge Manager, and Performance Manager. This app enabled the users to have access of the policy details and other required documents remotely.

My contribution	<ul style="list-style-type: none">● Develop and maintain cloud backend API's which is purely built in Java and Java frameworks● Integrated insurance REST APIs and crud operation with database and provide data, manipulate data as per client requirement.● Worked on Front-end validation as per client Requirement● Support and bug fixes
Tools	IBM MobileFirst, IBM WebSphere Application Server, Eclipse, Visual Studio Code, SVN, GIT, JIRA, SVN
Technologies	Microsoft SQL Server, JAVA, JavaScript, HTML, CSS

5. PSCU Mobile Framework – Banking app

This project includes building the Hybrid Mobile Application from scratch using IBM MobileFirst v8. The application has different core functionalities of banking. This project is developed on IBM MobileFirst using JavaScript on client side and JAX-RS framework on Server side. This project includes integration with native features like camera, Fingerprint, GPS based location and third-Party API for alerts control. Application is developed for android phones and iPhones.

My contribution	<ul style="list-style-type: none">● Develop and maintain cloud backend API's which is purely built in Java and Java frameworks● Integrated banking REST APIs● Worked on Front-end validation as per client Requirement● Support and bug fixes
Tools	IBM MobileFirst Server, IBM WebSphere Application Server, Eclipse, Visual Studio Code, SVN, GIT, Bitbucket, Stash, JIRA
Technologies	Core Java, Oracle SQL, JavaScript, HTML, CSS

6. United states' largest construction organization – Customer facing app

Mohammadharun Gandhi

Phone: (+91) 8469871604

Email: harungandhi95@gmail.com

This is a customer facing application for various users which are engaged with construction business like customer, contractor and worker. Application covers all the flows from starting to end of build a house, renovate a house etc. User interacts with each other at every stage of application. This project is developed on IBM MobileFirst using JavaScript on client side and JAX-RS framework on Server side. This project includes integration with native features like camera, NFC, GPS based location and third-Party API for chat and payment. Application is developed for android phones and iPhones.

My contribution	<ul style="list-style-type: none">● Designed & developed application using IBM MobileFirst.● Database design and creation● Worked on Front-end validation as per client Requirement● Integrating Cordova plugin for application● Integrated third-party API for payment● Support and bug fixes
Tools	IBM MobileFirst Server, Eclipse, SVN, JIRA
Technologies	Core Java, MySQL, JavaScript, HTML, CSS

7. India's one of the largest Conglomerate Company – Migration of different websites on portal

This project includes migrating current set of digital properties of India's one of the largest conglomerates to IBM WebSphere portal. This project is developed on Portal 8.5. This project includes integration with IBM WCM implementing multi-stage workflow, Portlet integration with IBM WCM and DB2, implemented HTML5, CSS, Web services and Ajax.

My contribution	<ul style="list-style-type: none">● Authoring and Presentation template, Component and Content creation● Implemented with JavaScript, HTML5, CSS● Support and bug fixes
Tools	IBM Web Content Management (WCM), IBM WebSphere Portal Server, SVN, JIRA
Technologies	JavaScript, HTML, CSS

Extra Curricular Activities

- Participated in Code Gladiators 2017.
- Participated in workshop arranged by DDU IT Department for Android.
- Participated in online quiz, aptitude tests and other online examinations.
- Participated in Code Vita 2015.

Personal Details

- Name : Mohammadharun Abdulkadar Gandhi
- Address : 16, Jasmin Society, Sevadal Road, Mahemdabad, Gujarat, India. Pin code- 387130
- Date of Birth : 24-March-1995
- Sex : Male
- Marital Status : Single
- Mobile : (+91) 8469871604
- Email : harungandhi95@gmail.com
