PROFESSIONAL EXPERIENCE

Project Trainee

eInfochips Company | January - Present

- At first, I got training in C, C++, Android, and Linux system programming.
- I worked on the Android development project, Communication skills with clients and seniors.
- During training, I developed many applications. With the use of Composer, Room Database, and Firebase
- Like-Quiz Game With Firebase, Notepad With Room Database, Currency Exchange, etc.

MAJOR PROJECTS

INSTANT HEALTH SOLUTIONS-(Python, Django,DialogFlow)

- This website was created to help people solve health-related problems. People (both rich and poor) face this problem as a result of a lack of adequate information and innovation in the healthcare domain.
- Anyone can get health solutions through this platform, whether they have money or not, whether they are new to it or have been doing it for a while; the main idea is to provide healthcare services in the health care domain for everyone with the new innovations

CAREER VEDA-(HTML, CSS, JAVASCRIPT, PHP, MYSQL)

- This Project includes all the features related to the education solution like-If any student searching for any opportunity in education then he/she can get easily through this website likewise there are more features for the help of the students .
- Coming to another feature related to the Guidance problem if anyone facing the same, for them there will be a guidance section where he/she can take the solution if still not getting then directly can contact us. Users have facilities to contact with the admin through email and call if they are not getting any responds then directly can fill the given form and later our admin will contact him.
