Objective is to prove worth in the field of Mechanics & Manufacturing. My use in the interpersonal skills and acquired professional skills. Wishing to further polish them and accomplish the long term objective of being a successful Engineer.

## AREA OF INTEREST:

- More than 4 years of experience in Production, Quality assurance and Quality control in Heavy Fabrication, manufacturing industries such as Pharma and Laboratory medical equipment.
- Pharmaceutical process equipment's like Rigid Isolators, Contained Granulations suites & material handling Projects.
- Heavy Engineering Industries or Heavy Fabrication Industries like Transformer Manufacture, Hydro's Job manufacture, Heat Exchanger Manufacture, Pressure Vessel Manufacture.

And Presently associated with Neuation Technologies Pvt. Ltd. as **Production Manager**

## COMPETENCIES INCLUDE:

### AS PRODUCTION :

- |                              |                             |
|------------------------------|-----------------------------|
| • Production Operations      | • New Product Development   |
| • Production Planning        | • Lean Management           |
| • Team Management & Training | • Management Representative |

### AS QA/QC :

- |                                |                                     |
|--------------------------------|-------------------------------------|
| • Quality Control/Assurance    | • Documentation & Reports           |
| • Rejection Analysis & Control | • Problem Solving Skills            |
| • ISO 9001:2015                | • Quality Management System         |
| • Vendor Quality Operations    | • Root Cause & CAPA                 |
| • Process Control/ Enhancement | • Customer Complaint Handling       |
| • Jigs & Fixture Design        | • Conduct Internal & External Audit |

## ORGANISATION EXPERIENCE:

- A. Since: May 2020 to till now**  
**Neuation Technologies Pvt. Ltd.(Gandhinagar, Gujarat), Manufacturing Unit**

**1. Post - Production Manager (April 2021 to till now)**

**2. Post - Quality Manager (May 2020 to April 2021)**

Company Profile:

Neuation Technologies Pvt. Ltd. is an associated company of Accumax Lab Devices Pvt. Ltd., Led and managed by a competent R & D team, which follow a user-centric design and development process to come up with a wide range of exceptional lab equipment. By using our competencies. Neuation's products are built on rigorous research and feedback that help to design and to offer unmatched performance.

## **JOB RESPONSIBILITIES:**

### **As Production Manager :**

- Defining & implementing standards, structured processes for production & manufacturing operations.
- Accumulating data related with capacity utilization of various machines, productivity, outgoing product's production and rejection trends.
- Achieving production targets by optimum utilization of manpower.
- Deploying various methodologies to analyze various processes, recommending modifications to minimize escalations, reduce rejection, realizing operational efficiencies, control variability, costs & reducing cycle-time.
- Coordinating the entire product development activities including requirement analysis, planning, finalizing specifications, designing and prototype development.
- Creating & implementing systems, processes and procedures to facilitate smooth functioning of process operations and enhance efficiency.
- To attend management meetings and conduct shift/team meetings with supervisors.
- Produce the SPC(Statistical Process control) and performance reports.
- Implement ISO 9001:2015 management systems.
- Interact with the cross-functional teams.

### **As QA/QC Manager :**

- To communicate corporate quality standards across the project.
- To create testing plan.
- To perform and coached others in data analysis and perform root cause analysis.
- Identify, document, tracked corrective actions to closure.
- Validation of new products and revised products.
- Develop and deliver quality management and quality assurance training for all employees engaged in quality and performance monitoring.
- Develop and oversee an effective quality management system to continuously identify opportunities for improvement.
- Ensure the performance and quality of services conform to company and regulatory standards.
- To interact with customers and suppliers on quality issues and resolution of any problems within process and final product acceptance.
- Implement ISO 9001:2015 management systems.
- Audit and Interact with vendors regarding quality issue and improvement.
- Maintain updated knowledge of the project program and requirements.
- Manage implementation and compliance of Quality Management program, including record keeping and training.
- Manage internal and external clients expectations related to quality management.
- Provide feedback on requirements and functional specifications.
- Provided input, guidance and coaching to site team to insure continuous improvement.
- Scheduled and coordinated all the quality and performance monitoring activities of QA staff across the project.
- Schedule, coordinate and report on both internal and external audit functions of the quality management system.
- To manage calibration process of instrument and gauges.
- Qualified alternative suppliers and materials for all product lines, including suppliers that give the organization more of an environmentally friendly presence in the market.
- Initiate an evaluation procedure which led to the redesign of major processes, and implementation of new policies, resulting in an increase of efficiency and reduction in personnel expenses.

- Monitor and manage all aspects of quality as per schedule.
- Completion of Product Documentation (test certificates etc.) before dispatch.
- Job file is properly archived, there should be no time lost for old data retrieval.
- Compile Pre FAT / FAT deviations with clients and compliance of FAT deviations before dispatch.
- Conduct stage inspections as laid down in QAP and file the relevant inspection reports in job file.
- Conduct quality checks at different stages of production and raw material procurement as per schedule.

**C. Since: Aug 2016 to Aug2019**

**EM Electro Mechanical Pvt. Ltd.(Manjusar, Vadodara), Fabrication Unit**

**Post - Quality Executive**

Company Profile:

It's an ISO & 5S certified Heavy Structure Steel Fabrication Plant. The Company works in accordance with International norms with the clients like Siemens AG- Germany, Voith-Hydro, BHEL, EMCO, Reliance infrastructure Ltd, Crompton Greaves consumer - Mumbai, GE LTI - Allahabad Naini, GE LTI Vadodara Limited, TBEA, ABB.

It manufacture Jobs like Power Transformer Tanks & Small Power Transformer tanks etc.

#### JOB RESPONSIBILITIES:

- Responsible or handling all the activities of Quality & production in the different sections of company such as material inward section, In Process section, Final assembly/Fitting & Final Inspection
- Handle the In-Process Inspection as per Quality Assurance Plan.
- Responsible for creating and maintaining the ISO documents of the company.
- Actively participate in supplier Development activities.
- Responsible for creating and conducting Quality Planning.
- Identify & check In-house Raw material as per order issued by Production Department.
- Make through analysis & Study of drawing information checklist.
- Accountable for studying feasibility commitment of drawing & Specification provided by customer.

#### SUMMARY OF QUALIFICATION:

- An degree in engineering with majors in Mechanical **71 percentile from RGPV University(2016), Jabalpur Madhya-Pradesh.**
- Securing **65 percentile in 12<sup>th</sup> standard(2012),**
- Securing **80 percentile in 10<sup>th</sup> standard(2010)**

Both from Kendriya Vidyalaya Jabalpur, MP are the Benchmark supporting the professional skills achieved with excellent interpersonal skills or professional attitude and firm personality to see tough jobs through, independently or as a team member.

#### TRAINING EXPOSURE:

- NTPC (National thermal power corporation), Dated from 15 July 2015 to 30 July 2015.
- Bhilai steel plant Bhilai, Dated from 10 Aug 2015 to 22 Aug 2015.
- Major Project  
Report on "Automatic hand brake system"
- Minor Project  
Report on "Reduction in temperature by heat transfer with the help of solar plate"

#### SOFTWARE SKILLS:

- ERP Software - SAP & Radix (Personalize ERP System)
- Auto-CAD -2013
- Microsoft-Office (basics)
- Knowledge of windows operating system(Windows 10, 8 & windows XP)

#### PROFESSIONAL PROFILE:

- NDT level II in DP &UT.
- Highly organized and dedicated with the positive attitude.
- Able to handle assignment with consistency and meet tight deadlines.
- Have excellent written and interpersonal skills.
- Thrive on working in challenging environment.

#### PERSONAL PROFILE:

- ☐ DOB : 22-May-1994
- ☐ Gender : Male
- ☐ Nationality : Indian
- ☐ Language known : English, Hindi, Gujarati (both oral & written proficiency)
- ☐ Hobbies : Reading, Travelling
- ☐ Marital status : Unmarried
