Murtaza Madraswala.

Graphic Designer

INTRODUCTION

Graphic Design specialist with over 3.5 years of result driven experience in the management of the complete design process, from conceptualization to delivery, with focus on telling clients' stories visually, through enjoyable and meaningful experiences, while being passionate about building simple, thoughtful, and visually appealing design solutions.

I have learnt that having a platform to question and develop ideas harnesses greater creativity - although realising creative inspiration doesn't come without its obstacles! Time management and working to tight deadlines are important in any industry, but the foundations and biggest challenges of design lie in communication. In all my work, I have relished these challenges and used them to fuel my ambition and maintain my own high standards.
