Profile

I am a UI/UX designer with a curious mind ,I learn how to solve problems and meet new people.This is one of the resons I invest my time to attending meetings where I can learn about everything design-related. As a user experience designer, I see it as a chance to grow my proffessionally and implement ideas while coming up with solutions. My approach to good design is finding the right balance of user empathy, Usability, aesthetic, a keen business acumen and a deep understanding of my users.
